

I would like to take this opportunity to thank Sharon for everything she has done for me over the past three years. When I first moved to Sharon's I would not speak it took time for me to build a relationship with her and her family. Now I'm part of that family Sharon can read me like a book which sometimes isn't a good thing (I need a smoke look) I have always found it hard to trust anybody, and I know I can trust Sharon with my life. I believe without the support and motivation I gain from Sharon I would not be who I am today. Emma - Jayne is like a sister to me also my best friend. I know in the future we will continue to have the relationship we have. Other foster placements have been nothing but a house to me. Now I have a home. Sharon has always made sure everything I need and wanted is catered for I'm spoilt. Words are not enough to express how thankful I am to have got such a brilliant placement but I know Sharon knows how I feel. I will continue to stay at the Galway finishing school for young ladies. I know where my breads buttered. I will finish my course and plan from there and with Sharon's help and advice I'll do well.
