

I am an 11 year old girl.

I came in to care a year ago.

I was very scared, worried and excited as I did not know what kind of family I was going to plus I would miss some of my own family.

My foster family were really kind to me and made me feel welcome.

I now have lots of sisters and one brother and they are also fostered, as well as my foster mum's real daughter.

My foster sisters help me do my homework and play lots of fun games with me.

My foster mum and dad help me control my behaviour and give me a hug when I am sad.

They love me very.

Even if I do something wrong my foster mum took me to get my uniform for my new school as I am going to year 8.

It is really scary going to big school but my foster mum has helped me to get ready for it by talking and listening to what I have said. Since I have been living here I have joined Girls Brigades, Bocce and ~~school~~ Sunday school. All these things I really enjoy and I have made friends at.

Being foster care has really changed my life. It has made me stop saying bad words, being angry and doing dangerous things. I have got lots of things ~~that~~ that I have never had before from boys, my special bed, lots of nice clothes and most of all hug and kiss when I want them.
