

A wonderful workshop –  
really feel inspired!

## Regional Kinship / Stranger Foster Care Training

**“Love always leaves a legacy”**

We are delighted to welcome back Dr Suzanne Zeedyk following a successful training day with her in May 2017.

*“Over the last 20 years, scientists have been discovering just how powerful love is. Relationships with loved ones affect not only our hearts, but our very biology. Understanding this link helps us to think more deeply about the struggles that children in the care system face, including why their behaviour is often so challenging. It also helps us to think about how we can help these traumatised children to heal. The answer is by loving them with even more patience and clearer boundaries”.*

Dr Zeedyk will make sure you leave this event feeling confident about understanding the latest scientific discoveries on attachment and trauma – and she will make sure you have practical suggestions about how to apply those insights.

Places are limited so early booking is advised.

**Who should attend:** **Kinship** Foster Carers on Monday, 26<sup>th</sup> February 2018  
**Stranger** Foster Carers on Tuesday, 27<sup>th</sup> February 2018
